

BILLING POLICY (Effective January 1, 2019)

Our fees (other than Form 1040) are based on the amount of time required to complete the services for which we have been engaged. These fees are reviewed annually and adjustments are made for inflation and increased skills. There is a minimum charge for income tax returns, \$250 for in-office appointments or mail-ins, \$300 if we come to you.

Fees for individual returns (Form 1040) are on the reverse side of this page. Our hourly fees are built in to the form charges and are not in addition, unless we have to sort your records.

There may be additional charges for out-of-pocket costs related to the engagement, such as photocopying, providing blank forms, computer charges, fax charges, and parking. Also, where there is a need for much faster service than normal, an additional fee will be charged.

We submit invoices as the work is completed and payment is due and payable upon receipt. Interim billing for audits and multi-period engagements may also be made.
